2018-2019 School Trustlands Final Report
Majestic Fields Elementary

Majestic Fields received $85,458 for the 2018-2019 academic school year. $71,962 was spent in accordance to our submitted plan with a carryover of $13,496 to the 2019-2020 school year.

The bulk of our expenditures were spent on technological devices and math manipulatives, and were able to serve their intended purpose in supporting the educational needs of students K-5 at Majestic Fields Elementary. These funds are important to the educational needs of students.

Thank you for the learning opportunities you have provided to our students through these funds. Please continue to support the Utah State School Land Trust. On behalf of MFES Staff, please know that it is a privilege for us to continue advancing the education of all the students at Majestic Fields Elementary through the proper use of these funds.
